Local News

Minnie Rockwell and daughter of Winnipeg are visiting at Mrs. Rockwell's brother, Carly Campbell.

There will be a meeting of the Board of Trade on Friday evening.

Don't forget the chautauque commencing this Friday which will be held in the Grand theatre. A large crowd is expected.

E. S. Williams formerly clerk to the Asst. Superintendent, has been transferred to Calgary.

Mrs. A. Moller and daughter returned from their holidays at Edberg.

Miss Hilma Moller left Tuesday for Alix where she will take a position as telephone operator.

Jack Spence's coupe turned over on Friday evening, most of town. Nobody was hurt but the car was badly damaged.

Phelma Purcell returned home from her holidays at Jasper. Mrs. Purcell brought her home from Edmonton in the car and reports the roads in bad condition.

Mrs. Godard has been visiting with Mrs. Holmes prior to leaving for Edmonton.

Mr. Godard motored to Killam with Mr. Wood last week end.

Rev. Wm. Wyman, Ph.D., of Regents Park United Church, Winnipeg, whose services were so highly appreciated last Sunday at the old-timers' re-union has been asked by his many friends of the Ripley district to remain for another Sunday and conduct the weekly services. Dr. Wyman has kindly consented to do this and the residents will have another opportunity of hearing him next Sunday.

To the officers and members of the Wm. Brown Lodge No. 91 a special meeting of the above lodge will be held in the W.I. Building Aug. 8th at 10:30 sharp.

Watch for the children's Chautauque parade on Tuesday.

Mr. and Mrs. Warren Thoroughman from Veteran were at the old-timers picnic at Mirror beach on Monday last.

John Loughridge is staying at Geo. Bell's.

Mr. and Mrs. Henry Curr and family and Sarah Brindle motored from Cowley to attend Old Timers Picnic. They are visiting at L. S. Olson's.

A. Common motored to Edmonton on Monday.

Fred Downsoll and Philip Neis collided on Saturday evening at 10 o'clock, near Chris Albarr's place, west of town. Phyllis Neis was cut about the head and arms. Mr. DeLeeuw, also an occupant of Neis's car had two ribs broken and an artery cut, causing hemorrhage. He is at Neis's home at present and is unable to move.

Mr. Gordon Cassidy was host at a theatre party last Saturday evening.

Frank Durrant left on Thursday for Vancouver where he will spend his holidays.

Mr. and Mrs. Rye of Fort Saskatchewan were up to the re-union. She being a former teacher.

Ripley Old-timers' Re-union

The Old Timers Re-union went over very successfully, with a large number of the old timers of Ripley district coming from far and near.

The service on Sunday afternoon was conducted by Dr. Wm. Wyman who was very much appreciated, at the close the names of those of the district who have passed away, were read out. The old-timers of the district who were unable to attend, were mentioned. After a short intermission in the afternoon addresses were delivered by Dr. Wyman and Dr. Driver of Calgary. Mr. Wallace of Alix gave a short talk. Musical selections were delivered by the Alix and Mirror choirs, Mrs. Melvin Olson gave a solo.

On Monday afternoon at the beach a platform was erected, and the program of speeches was much enjoyed. Mr. Garland M. P. of Bow River, and Donald Cameron M. P. Innisfail, gave interesting talks on economics also referring to the old settlers of the district.

Mrs. R. W. Barritt was chairman that day. The sports which followed was much enjoyed by everyone.

Addresses were also delivered by Mr. Thibadeau school inspector and Dr. Powell.

Mrs. J. W. Barritt and Mr. Horniman two of the oldest residents of the district were presented with bouquets and Mrs. Henry Curr the oldest native born resident was presented with a gift and a bouquet. Songs were rendered by Miss Marsh (former teacher of Ripley) and Mrs. Waterman, also community singing.

Highland Gathering At Banff An Annual Function That Is Attracting Widespread Interest

(By C. V. Lane.)
Hupner, Brooke, James British poet who died in the war, visited the Rockies some years ago. Unable to withhold his admiration of their grandiose scenery, he qualified it with the criticism that saw-tapping as they were, they were without human associations such as the Alps possessed. No man looking at them could imagine the tremendous adventure of Hannibal crossing the snow-capped passes with elephants and the clangor of his motley army of Carthaginians and Spaniards. The torrent of northern barbarians pouring over their heights to the attack of the falling Roman Empire; even almost in our times, the invasion across the Alps of Italy by Napoleon, are with-

not any remotely similar events in the known history of the Canadian Rockies. He concluded from these facts that these mountains, however beautiful they undoubtedly were, lacked history and so were without a soul.
It is not of course everyone who has this historic sense and it is quite conceivable that the majority of Alpine climbers and tourists never give a thought of Hannibal or Napoleon when they are in Switzerland. They are satisfied with what they find there and they may reason that the centuries of man's history are dwarfed into moments of time when compared with the incalculable age of the mountains themselves. Still, there is something in Brooke's argument. To decorate inanimate objects with his own restless life, has always been a faith of man, and what may have been true when he visited the Rockies ten years ago, is much less so today. For since that time the Highland Scots have left an indelible stamp upon them.
There are several nations in Europe whose history is inseparable from mountains, as for instance the Swiss, the Tyrolese, the Basques, the Scandinavians. But not one of them is so inextricably stamped with their mountains and their history as the Highlander. His speech, his music, his outlook on men and things, his life, his pleasures and his sorrows are a part of his environment; the one lifted high into the heavens, the other sink deep in the profundities. A little nation that has always lived in the shadow of the

Sugar Beets In Saskatchewan

Sell and Climate Favorable To Beets
Of Good Quality
The growing of beets for sugar at some time develop into an important industry in the province of Saskatchewan. The soil and climate are favorable to the growing of beets of good quality. A number of varieties of strains of sugar beets were raised at the Rosthern Experimental Station last year, and it is recorded by the superintendent, in his report, issued by the Department of Agriculture, at Ottawa, that the yields were good, and that the green weights were lower than other strains. The roots, the dry matter content is much higher and compares very well in this respect. The report contains a table giving the yields of four of the best varieties in a two-year average. The weight of crop ran from 16 1/2 tons down to 12 1/2 tons to the acre, with a sugar content running from 14.75 per cent down to 12.86 per cent.

Sweet Clover For Cattle Pasture

After Acquiring a Taste For Sweet Clover, Cattle Prefer It To Other Pasture Crops
Cattle apparently have to acquire a taste for sweet clover pasture, but having attained the habit of grazing on it they seem to prefer it to other pasture crops. At the Rosthern, Saskatchewan, Experimental Station a group of beets that were planted on bluff lands during the early part of the summer, were moved to a hay field that contained areas of sweet clover, bromus, and rye grass. The superintendent of the station in his report of the station for 1927, published by the Department of Agriculture, at Ottawa, states that the cattle pastured at first chiefly on the bromus grass, but they gradually went over to the sweet clover until finally they pastured practically all of the time on this forage plant. It notes further that the sweet clover makes an excellent aftermath for dairy cows and heifers.

May U.S. Mourning Mast
Members of the St. Louis air board, who arrived in London after a visit to Italian, said that they had received authority from Secretary of War Davis, of the United States to invite the owners of the English dirigible the R-10 and the German dirigible, Count Zeppelin, to use the morning mast at the Scott Army Park, Belleville, Ill., in the event of a flight to North America.

RAILWAY MAN PROMOTED

Mr. C. J. Culler, recently appointed general superintendent, Manitoba District, Canadian Pacific Railway, succeeding A. E. Stevens, retired.

Poultry Improvement

Flock Of High Record Layers Developed At Rosthern Experimental Station
The Dominion Department of Agriculture through the Rosthern Saskatchewan Experimental Station, is becoming an important center for the improvement of the poultry flocks of the province. The station has developed quite a large flock of high record layers and it is from these that the demand for setting eggs and young birds are being supplied. This station, according to the report of the superintendent, for 1927, has hens that have reached the three hundred egg mark in a year, and the utmost care is being taken to keep the flock up to a high standard of health and production.

Outskeeper Neighbors
The New York Sun says: One of the reasons why Canada and the United States get along in such a neighborly manner is that they have a common habit of saying precisely what they mean. They may not always agree, but at least they understand each other. It is easy for nations of good will to do business on such terms.

In Japan children are taught to write with both hands.

The Economic Recovery From The World War Presents A Most Surprising Historical Fact

Time To Fight Weeds

July Is Best Month To Destroy Noxious Weeds

Swat the fly, we are told, and the progenitor of countless thousands is destroyed. The same is true of weeds. One vigorous, healthy, prolific plant will reproduce itself several hundred fold.

The critical period is during July. Mowers, scythes and sickles should be kept busy throughout the month. The roadsides especially should be attacked, and not left, as they often are, until the plants have fruited and seeded down the neighborhood with noxious weeds.

Cutting roadside and farm weeds before they ripen their seeds is a good control measure. Cutting them late in the season is creating the law, just as costly as doing it at the right time and far less effective.

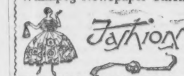

For their own protection farmers would be well advised to take the matter in hand and see that the roadsides are cleaned up in time to prevent re-seedation. Many farmers make a practice every year of running the mower along the right-of-way in front of their lands, and destroying any remaining weeds with the scythe. July should be weed month—a month for killing weeds, not propagating them.

Canadian Crop Outlook Favorable

Area Large and Prospects For Higher Average Yield Than In 1927
A preliminary estimate just issued by the Dominion Bureau of Statistics indicates this year's Canadian wheat crop at 23,055,000 acres, an increase of almost a million acres over 1927. The area sown to oats is 13,257,000 acres, about the same as last year. Barley shows an increase and rye a decrease.

The condition of all wheat is given as 102 per cent. of 1927, when the total yield was 440,024,700 bushels. Manitoba, Saskatchewan, and Alberta, which are now the chief sources of the world's wheat supply, all show conditions superior to 1927.

"The economic recovery from the World War is a more surprising historical fact than that of the World War itself, and it is in many ways a more important one." This challenging statement was made by Professor James H. Shovel, director of the Division of Economics and History of the Carnegie Endowment for International Peace, with reference to the researches which he has been conducting ever since the close of the conflict on the economic effects of the war in all the countries of Europe and in the United States.

Dr. Shovel pointed out that the war itself had not quite taken Europe by surprise. It had been long anticipated and prepared for; but as it progressed there were no economists or serious thinkers anywhere in any land, who had any glimpse of the rapidity of recovery from the appalling catastrophe.

The results of the economic recovery which the Carnegie Endowment has been making in the different European countries indicate a degree of stability and order in the modern society is capable of enduring economic destruction far beyond what anyone had thought possible in 1914, or even in 1918. Europe had naturally suffered enormous losses, and yet, in spite of all the destruction of property, the standard of living of the working class is higher now in most European countries than it was in 1914. This does not mean that all changes have been able to hold their own, but the working class has definitely improved its wage standard and conditions of living.

This improvement is not caused by the war, but has happened in spite of the war. All of which shows that there are forces at work in modern industry which are revolutionizing the basis of living. The causes for improvement lie in improved business methods, in scientific management, mass production and an increased technical skill. All of this is very close to the heart of the matter to politics and much of it in disregard of the most reactionary and uncommercial political programs. The question whether it will continue or how much it may be continued upon is one which any historian actually do very close to the heart of the matter to politics and much of it in disregard of the most reactionary and uncommercial political programs. The question whether it will continue or how much it may be continued upon is one which any historian actually do

The scientific researches of the Carnegie Endowment attempt to answer the question, what new ways actually do to the economic processes of modern living? The answer is an emphatic negative so far as war is concerned, but it is to recognize at the same time that modern civilization has acquired a capacity for adjustment and an economic strength almost unbreakable. The fundamental attack upon the war system therefore must remain a moral one for so long as the economic destruction is not human life itself, with the consequent retrogression in moral outlook.

Two new volumes have just appeared in the vast collection of the economic history of the World War, which Dr. Shovel is directing. They deal with the effect of the war upon Denmark and Norway. An exhaustive series of monographs on Sweden appeared some time ago. A study of these volumes shows how deeply the neutral nations were involved in the blockade and economic struggle.

What a happy world this would be if there were as much enthusiasm at the finish of an enterprise as there is at the start.

Nearly 2,000 tons of fish were landed in the Bay recently at Grimsby, England.

## MYSTERY ENDS BY FINDING BODY OF LOEWENSTEIN

Boulogne-sur-Mer, France. — The finding of the body of Captain Alfred Loewenstein, missing Belgian military aviator, has cleared up most of the grim mystery surrounding his disappearance from a cross-channel mission on July 4.

French and Belgian authorities will still have to determine whether Loewenstein accidentally fell from the plane as it flew 4,000 feet over the English Channel, or deliberately wrenched open the exit door and plunged to his death.

But the ugly rumors that the financier had perpetrated a gigantic hoax, and was still alive were definitely set at rest by the finding of the body.

The battered body was found floating face downward ten miles off Cap Gris Nez, by the Belgian fishing ship, *Le Vaisseau*, Capt. Jean Marie Reard, and was readily identified by a wrist watch engraved "Capt. Loewenstein, 33 Rue de la Science, Brussels."

Otherwise the body was unrecognizable, as it was in an advanced stage of decomposition.

The body was clothed only in undergarments, socks and shoes, the latter bearing the name of an English maker. There was a severe wound in the abdomen and both feet were broken.

At the Boulogne morgue Dr. Boulenger made a formal post-mortem examination, and the mayor of Calais, Louis Vincent, drew up a signed official statement recording the circumstances of finding the body and the result of the examination of the remains. No official conclusion was made public.

It is believed here that now that the mystery of the financier's disappearance has been solved, the French government will begin an official enquiry to establish whether death was accidental or a suicide, and if any of Captain Loewenstein's fellow passengers in the plane will share any responsibility for his death.

## Bavarian Town Was Damaged By Floods

Oberammergau, Famous For Its Passion Play, Was Submerged.

Berlin. Oberammergau, the Bavarian town, famous for its Passion Play, has been partly demolished by flood.

The town was submerged when clouds burst caused the river Lahn to overflow. Bridges were swept away. Torches had to be used in relief work until dawn, because the local power plant was flooded.

Floods struck the Oberammergau district the neighboring Teufelsberg forest, near Füssen, was shaze.

## Considering Air Insurance

Canadian Companies Relieve People Will Want This Protection

Ottawa. Canadian insurance companies are considering against the issue of insurance for civilians interested themselves in aviation, it is learned. Recently a conference of actuaries and insurance medical authorities is said to have discussed the matter, realizing that soon the man who drives his own plane will be in the same category as the man who drives his own car, so far as the demand for insurance is concerned.

## Motor Boat Beats Train

German Express Drives Craft Nearly Mile A Minute

Cologne, Germany. — Fritz Von Opel, German sportsman and motor boat expert, made an express train with his 560 horsepower motor boat in a race over a distance of 150 miles (123 miles on the Rhine).

Von Opel drove his boat over the distance in six minutes and 12 seconds, 2 1/2 minutes faster than the train running along the river bank. The average speed of the boat was 68.81 miles an hour.

## Federal Government To Raise Pigeons

Ottawa. — The Dominion government is going in for pigeon-keeping, the object is not, however, to increase the food supply of the country. It is to breed and train pigeons for purposes of communication. The department of national defence is to have charge of the work.

Glasgow, Scotland, was recently freed because some of its municipal street cars exceeded the speed limit.

## Receives New Appointment

Dr. Delury Of Saskatchewan University Will Go To Manitoba

Winnipeg, Man.—Dr. J. B. Delury, of the University of Saskatchewan, will succeed Dr. R. C. Wallace as commissioner of mines and geology at the University of Manitoba. The appointment was announced by the government.

Prof. Delury expects to make the necessary arrangements with the University of Saskatchewan to make it possible to take up his work here September 1, when Dr. R. C. Wallace leaves to take over the position of president of the University of Alberta.

Dr. Delury is well known in Winnipeg and Manitoba. He was for many years the right hand man of Dr. Wallace in the department of geology and mineralogy at the University of Manitoba, in fact, capacity rendered valuable service to the province. One of his latest contributions was a voluminous report which he prepared two or three years ago for the industrial development board.

It is only a year ago since he left to organize the department of geology at the University of Saskatchewan as professor in charge of that department.

Dr. Delury is a graduate of the University of Toronto and of the University of Minnesota, and was in charge of the department of geology in the United States before he came to Manitoba in 1913.

## Would Export Alberta Gas

Plan To Pipe Waste Gas To Saskatchewan, Manitoba and Montana

Lethbridge, Alta.—Alberta's proposed waste gas scheme is closer to solution and it appears to lie in the piping of the surplus gas to Saskatchewan and Manitoba cities, and the city of Montreal.

In an interview here, Hon. Charles Stewart, minister of the interior, said it is his opinion the shipping of gas south to Winnipeg, serving intermediate cities, including Moose Jaw and Regina, was feasible.

Agreement of gas from the Rogers' field, southeast of this city, is now possible under Federal permit. The Range Oil and Gas Company has applied in another well to the Rogers dome just south and east of the 60,000-barrel field producer, and the company and the Hardrock Oil Company, of Great Falls, will drill the wells, are to have gas flowing through their pipe line into Montana by winter. A pipeline will be built to the Montana boundary. It is announced, either to the present pipeline or to the Great Falls or as a separate line to that city.

## Libel Action Settled

Action Was Brought By Cardinal Hayes Against London Newspaper

London.—Settlement of a libel action brought by Cardinal Hayes, New York, against the Sunday Express was announced in the King's Bench division.

Counsel stated that a paragraph appearing in the newspaper had said that the cardinal was a man who was guided by Kevin O'Higgins, Irish Free State minister of justice, on the ground that he was an "English hireling."

Counsel said that the defendants never suggested for one moment that the statement, which had been made by a contributor, could be justified and promptly did the honorable thing by apologizing for having published it.

## Receive Royal Pictures

For National Gallery

Gift Of King George Rephrases Portraits Destroyed By Fire

Ottawa.—Pictures of King George, Queen Mary, Prince of Wales, King Edward and Queen Alexandra, were received by Eric Brown, director of the National Art Gallery, on behalf of the Canadian Government. These portraits are the gift of King George and will replace the pictures of the distinguished members of the royal family which were in the old parliament buildings but were destroyed when the buildings were burned in 1916.

Will Tour Canada

Quebec.—Fifty members of the National Chamber of Commerce, of Great Britain, headed by Charles James Stanworth, president of the Chamber, arrived here and immediately proceeded to Montreal by train. The party will tour Canada, staying in Montreal two days before going to Ottawa.

## Russia Buys Canadian Wheat

Further Sales Of Canadian Wheat To Russia Are Announced

Winnipeg.—Further sales of Canadian wheat to Russia were announced at the grain exchange here. That country has taken orders for 1,500,000 bushels, bringing her total purchases during the past fortnight to 9,500,000 bushels.

A good portion of the grain was No. 3 Northern Manitoba. Italy is credited with the purchase of one million bushels. Durum wheat, mostly from the local market.

Demand from other European countries remains indifferent partly because of increased native supplies and partly on account of prospects for large crops on the North American continent this year.

## Feeling Against Noble

Leader Of Italia Expedition Under Criticism In Norway

Oslo, Norway.—Feeling against General Umberto Nobile, leader of the Italia expedition, is making itself felt in Oslo.

The newspaper *Aftenposten* removed a picture of the general from a show case during the day on threats had been made to destroy it. Several Danish explorers have proposed Fridtjof Hansen as chairman of a court of honor to investigate Nobile's leadership of the expedition.

Hansen declined this but said that he thought there were several elements in Nobile's expedition that need closer investigation.

## CONSERVATIVES WIN IN B. C. BY LARGE MAJORITY

Vancouver.—The Liberal Government which has held power in British Columbia for the past twelve years, and which has been led by Premier J. D. Maclean for the past year, was defeated in the provincial election and the Conservatives took over the leadership to Hon. Dr. F. T. McLean, who was elected to power.

Premier and at least two of his ministers were defeated. Dr. McLean was elected in Saanich.

Premier Maclean was defeated in Victoria; Hon. Dr. Douglas Denbigh, minister of finance, in Vancouver; Hon. E. D. Barron, minister of agriculture, in Chilliwack.

Liberals have been elected in New Westminster, Cranbrook, and Nanaimo.

Conservatives have been returned in Vancouver six, Victoria four, Saanich, Burnaby, South Vancouver, North Okanagan, Chilliwack, Coquitlam-Seascale, Comox and The Islands.

The Liberals gained Cranbrook from the Conservatives, while the Conservatives have gained all six Vancouver seats, five from Liberals and one from the now defunct Provincial party; Chilliwack from Liberals; Comox from Independents; Burnaby from Labor; South Vancouver from Labor.

Mrs. Mary Ellen Smith was defeated by H. H. Pooley, in Esquimalt. Of the 85 seats contested in the provincial election of 1921, in the Legislature, the Liberals carried 29 in the last contest; the Conservatives, 37; Labor 3; Provincials, 1; Independents, 1; and Independent Liberals, 1.

## Norwegian Journalists Visiting Canada

Party of representative Norwegian journalists touring Canada, under arrangements made by the Canadian Press's Department of Colonization and Development—visiting the various Norse settlements in the Dominion and gaining first-hand impressions as to immigration prospects.

## PREMIER-ELECT FOR B.C.

Dr. F. T. McLean, Leader of the Conservative Party in British Columbia

Hon. Dr. F. T. McLean, leader of the Conservative Party in British Columbia, is shown in a photograph.

## Clark's Status Discussed

Duties of British High Commissioner in Canada Debated In House

London.—The Government's newly appointed high commissioner in Canada, Sir William Clark, who is sailing for Ottawa shortly, and the duties of the newly created position were discussed in the House of Commons when P. J. Hanon, Conservative, asked whether the High Commissioner should take precedence over the representative of all foreign powers at Ottawa, and if in submitting proposals respecting British commercial interests to the Government of Canada, he would have diplomatic support of his Majesty's government in Britain.

Right Hon. L. C. M. Amery, Dominion Secretary, in replying rephrased the question in the similar case of the Dominion high commissioners in Britain, who ranked immediately after cabinet ministers, but not before foreign ambassadors.

It was of course contemplated that the high commissioner of Great Britain, in Canada, would be authorized to make representations on commercial questions to the Canadian government when instructed to do so by his Majesty's government in Great Britain, the minister said.

## Statistics Show Crime

Increase In Canada

Convictions Recorded In 1922 Higher Than Previous Year

Ottawa.—Crime is increasing in Canada. Latest official statistics available show that for the year ended September 30, 1922, the number of convictions recorded reached a total of 21,075 as compared with 18,746 for the preceding period ended September 30, 1921.

The number of indictable offences returned for the year under review, according to the Dominion Bureau of Statistics, was 23,726, compared with 18,825 convictions. Summary convictions for non-indictable offences amounted to 183,610.

## Will Succeed Dr. Wallace

Winnipeg.—Dr. J. B. Delury, of Saskatchewan, will succeed Dr. R. C. Wallace, as commissioner of Mines and Manitoba, and as professor of geology and mineralogy at the University of Manitoba. Dr. Delury expects to take over his duties when Prof. Wallace leaves to take the position of Professor of Mines at the Alberta University.

## Canadian Militia Promotions

A Number Of Transfers and Promotions are Announced

Ottawa.—The rank of "Brigadier" recently introduced in the British Army has been conferred on the Canadian Militia, with effect from July 1. The temporary rank of "brigadier" is in substitution for the temporary ranks of colonel commandant and colonel-in-chief.

Orders promulgated from defence headquarters announce a number of important promotions in the Canadian Militia. Among them are the following:

Major E. H. Ope has been promoted to the rank of lieutenant-colonel and command the Vancouver Regiment with regimental headquarters at Vancouver, B.C., vice lieutenant-colonel B. G. Wolcott, M.C., who has been transferred to the reserve of officers.

Major W. W. Henderson has been promoted to the rank of lieutenant-colonel and to command the 2nd regiment, the Alberta Mounted Rifles, with regimental headquarters at Vancouver, B.C., vice lieutenant-colonel Fisher Creek, Alta., vice lieutenant-colonel H. J. Jackson, transferred to the reserve of officers.

## May Establish Trade Treaty With Germany

Four Would Lead Canada's Export List, Says N. B. Palmer

St. John, N.B.—Canada's export trade with Germany will be increased under favorable trade agreements which the Dominion is negotiating to establish with that country, said Mr. N. B. Palmer, Calgary, newly appointed assistant Canadian Trade Commissioner to Germany.

Mr. Palmer, who was in connection with a tour of the Maritime provinces with a view to developing Maritime export trade with Germany, in speaking of Canada's trade conditions with Germany, Mr. Palmer stated that at the present time Canada is discriminated against as regards existing agreements, which particularly affected the export of goods as well as other commodities.

Should the trade treaties being advanced by the Canadian government go through successfully, Mr. Palmer is of the opinion that four would lead Canada's export list to Germany:

## ASSASSIN OF GEN. OBREGON IS IDENTIFIED

Mexico City.—Police headquarters recently announced that the assassin of General Obregon had been identified as Jose de Leon Tovar, a native of Tlaxcala, in the State of Jalisco.

He is said to have lived at Guadalajara, but to have come to Mexico City six months ago seeking employment. He was found upon him a picture of the Catholic priest, Miguel Angel Prohman, who was executed in connection with the efforts to assassinate Obregon with bombs last November.

President Calles declared that the assassin of General Obregon had admitted the motive of his crime was religious fervor.

There were innumerable rumors in the capital of uprisings and other killings, but all proved to be untrue. Intense excitement prevailed everywhere, but neither the newspapers nor the government had any information of trouble breaking out anywhere in the republic. The war department issued an official communication saying that the army would guarantee the public order.

President Calles was surrounded by a strong guard. All saloons were closed, as were theatres and other places of amusement.

Many of those known to be opposed to Obregon, fled from Mexico City before the fury of his friends and supporters, which were kept in bounds only by police precautions.

The headquarters of Luis Morales, secretary of Labor, and Obregon's greatest political opponent, were surrounded by a guard at the instance of President Calles, who feared that there might some attempts at violence.

## GENERAL NOBLE TO RETURN HOME IN QUIET MANNER

Kings Bay, Spitzbergen.—The man who came from Italy in a giant airship and circled the North Pole to the applause of a world which loves brave gestures and deeds of daring—General Umberto Nobile, commander of the dirigible Italia, will return home on a real freighter, avoiding all possible ports of call. It was announced by one of his associates.

The general will travel over an unknown route to an unannounced destination where he will be picked up by a motor-driven schooner and taken to Germany or France. It was said he would leave in a few days.

Nobile will not travel with the men who went into the Arctic with him—after the Alberta expedition—nor will he appear on the ice and his others blown away in the wreckage of the Italia to probable death.

The seven men who were rescued by the steamship Krasna, after Nobile had been brought out by the Swedish aviator, Captain Einar Palmgren, will return at least a part of the way, aboard the Italia's base ship, *Citta Di Milano*.

Nobile cannot touching at any port in Norway. An unfriendly sentiment has been manifest in Norway toward the Italian polar expedition since two Norwegian companions, Captain Adalberto Mariani, and Filippo Zappi were picked up on the ice by Dr. De Longberg, Swedish scientist, had been left behind his own insistence to die by a grave scooped out of the ice.

The Italian and Zappi arrived with five other rescued Italians on the Krasna in Sweden.

The *Citta Di Milano* probably will proceed to Narvik as soon as possible with the survivors, then return to King's Bay to continue the rescue of the two Norwegians with the Italia, and six, including Lord Amundsen, in a French seaplane, which left Tromsø, Norway, June 15, to search for the two Norwegians.

Information from Stockholm indicates the government would order the rescue expedition under command of Captain Thorndyke to return immediately to Sweden.

## Hail Damages Crop Of Wheat King

Experimental Plot Of A. C. Mitchell, Dahnada, Are Ruined

Dahnada.—Prospects of J. C. Mitchell, Saskatchewan Wheat King, regarding the international crop, were seriously jeopardized by the worst hail storm experienced in this district, which ruined many crops.

Mr. Mitchell had 240 acres of corn, completely ruined and on 50 acres, a 50 per cent. loss. Fortunately the wheat crop was not so badly hit, and second generation of experimental grains.

The damage to the Mitchell crop will be of no reaching consequence to the wheat producers of the West, for included in the damaged crop were experimental plots which the Wheat King was carefully tending this summer. His plot of the famous mystery wheat, Harvard, was also a complete loss.

## No Claims Paid This Year

Reparations Not Intend To Pay

Ottawa, Ont.—Although the War Reparations Commissioner has made his report which was made public last season, the government does not intend to pay the claims for a year. Part of the money for this purpose was included in Hon. James A. Robb's surplus. There was much disappointment among the claimants at the size of their awards. These may be revised by the Government, but the 3,000 small claimants will have to be satisfied with what Reparation Commissioner J. R. found due them.

## Over Million For Memorial Fund

London.—The fund contributed by British war veterans for a national memorial to the late Queen Alexandra has reached a total of \$1,160,000. The visible memorial will take the form of a bronze group designed by Alfred Gilbert, and it will be erected at Marlborough House, opposite the Victoria Memorial.

James P. Keegan, who has been named as the fund to be used to extend the present nurses' pension fund.

## Have Restored Titles

Prague.—The Czechoslovakian government has introduced a measure in parliament restoring meeting titles which were abolished after the revolution.

## THE BIGGEST LOCOMOTIVE

This is the largest locomotive in the British Empire and it has just been placed in service by the Canadian National Railway. Because of certain new features it has been called the Northern Type to distinguish it from other types of locomotives. It is entirely Canadian made and in weight, size and power it is greater than any other locomotive in the Dominion. It is capable of carrying an 18-wheeled car passenger train 511 miles without change and unlike other locomotives it is convertible from passenger to freight service. Forty locomotives are being built on the order of S. J. Hagerford, operating vice-president of the Canadian National Railway, all of them in Canada. The round or Vanderbilt type of tender used on the Northern permits of greater visibility to the rear and another feature is the placing of the whistle close to the smoke stack. This increases the distance at which the sound can be heard and also saves the ears of the engineers.

The year 1926 was a banner year for the British Columbia coast steamship service of the Canadian Pacific Railway, according to Captain J. W. Troup, manager of that branch of the C.P.R. fleet. The "Princess Marguerite" and the "Princess Kathleen," in the triangular service, make a fine record and the Alaskan tourist business was brisk.

For the first time in the history of Alberta, alfalfa seed is being shipped to Denmark. This is registered Grimm alfalfa grown by the Grimm Alfalfa Seed Growers' Association, at Brooks, which this year produced one-third of a million pounds of this seed. It appears that Danish growers have experimented with this seed in the past and have now placed an order for 50,000 pounds.

The Nova Scotia Fruit Growers' Association has requested the Provincial Department of Natural Resources to appoint and send overseas a Commission to enquire into the conditions under which Nova Scotia apples are marketed. The suggested personnel is the Secretary of the Nova Scotia Fruit Growers' Association, a representative of the United Fruit Companies and the newly appointed Provincial Agriculturalist, Prof. Middleton.
